“ I have just heard about Albertas passing. I have loved her for many years., love all of the family also. Alberta always had her daddy a pot of coffee ready when he came in from work, but the one thing That always grossed me out was she would take a heaping spoon of coffee grounds and eat it. When I was in the 10th or 11th grade some days after 1st period I would go spend the rest of my day with her. She was always styling my hair as well as coloring. I send my sympathy to all Larry, Wayne and his family, Sissy and Cora and her family. I love you Elaine Knight West

“ Every year there would be a black snake come up to her house and she would call me to come get it and I would always run over there and get it for her and turn it loose in the field but every year when it got warm I knew that call was coming I'm really going to miss that call this year
