“ Our sincere condolences to the treichler family. Jim and I grew up together from about age 5 till we graduated from high school. We went to the one room school in shawnee (Wheatfield #1) till the 6th grade. Jim and I were in the first class to complete the 4 yrs of high school at Starpoint 1961. I remember helping pick grapes and taking the old farm truck loaded with apples to the cold storage with Jim. We spent rainy days playing with the old large scale train set that Jim had Under his bed in the old farm house. Jim and I lost track of each other over the years until last years 50th school reunion. Jim and I Had breakfast the next morning and found out that the world was really small and that Jim was living only about 80 miles away in tennessee sadly we didn't swap info and get together. Iam sad to hear of his passing. Jim was a good friend and will be missed and the memories will be cherished for ever.

“ Our sincere condolences to the Treichler family. We have been friends with Jim since 1963, meeting him at Harrison Radiator. To know him was to love him. We have many, many fond memories that include Jim driving his Dad's tractor from Sanborn to Lockport to help us put a new lawn in at our new home - what a ride--what a guy! Our memories also include camping, fishing, dancing, helping Jim with steam engines and hauling grapes & hay. When Jim traveled, he always had his CB radio on and his handle was "The Hangman". All the truckers knew Jim! We have so many fun times that we will never forget but most importantly, he was a TRUE friend -- always there for us if we needed him and Jim knew that we were there for him. So long dear friend, see you on the other side. 10-4 and out.
