Tribute Wall

“ Joshua was a very intelligent young man, he went to Nicaragua twice with his church missionaries out of Jackson, TN - he was adored by the people in Nicaragua, both the young children and the older people, the children would climb up on his neck and swing from both his arms, Joshua said the children had never seen such a big man before!

He would get emotional when he had to leave

Joshua helped build schools and a library and he would help them walk the long distance to get their water, now the people have water closer to them thanks to the church- Joshua battled Type Two diabetes militas - he was the strongest man in our entire family, he was amazing to watch!

He read the Bible more than three times in his young life, Joshua was bedridden the last two years of his life- Joshua died in my arms, his mom, on September 16, 2023 at our home in Joelton, TN Prior to his last two weeks of his life, he was rushed by ambulance to the hospital due to having five seizures, he was put on a ventilator and we were told he would never talk, walk or know us, I never believed that because Joshua and I were extremely close, on the third day in ICU, Joshua busted through his restraints and pulled out the ventilator

The next morning I went back to the hospital and my son was standing by his hospital bed, 6 ft 1 inch tall, I was amazed but I knew in my heart, Joshua would always know his mom! He said, “Hi mom, I’m so sorry I put you through this, you look so stressed, come sit down by me- he told me he had no memory of anything except he could always hear my voice- Joshua was told by his doctors his heart was very strong and they released him on Saturday after spending seven days in the hospital, the following Saturday, seven days later, I heard Joshua say, mom, I’m in the bathroom and need your help” I was in there in seconds, he lunged towards me and then he fell back, I immediately started CPR with 911 on the phone with me counting to 30 and telling me to give him two breaths, I did this six times before the paramedics got to our home, within 5 minutes I heard, time of death 4:29 pm - held my 35 year old son and prayed the Good Lord would take him

and love him until He called me home, Joshua was my only son, he would tell me stories from the Bible at night, I stayed with my son the last three years of his life and I am so grateful I spent that time with him, Joshua had the biggest heart and he was such a blessing to me! I miss him every single day! ❤️
He is in heaven with Jesus Christ, my son has no pain and he is dancing with the angels!
Praise the Lord! 🙏🙏🙏
