“ Nanny I love you and I miss you so much! You touched my life in a very special way! I want you to know that you are very special to me! Its hard to believe that you are really gone so soon, but now you don't have anymore pain or heartache. You are finally after so many years reunited with your heavenly family. I will be up there too someday, when its my time to go. I miss you being here more than anything in the world. Every time I turn the corner to go in to the bedroom we shared, I expect to see you laying there in your bed. That room feels so empty now, but it also feels so full of the memories we shared too. I can't wait to see you when I get where you are. I want to be there now, but God isn't done with yet. I guess he needs me here for now. I love you so much. I wish we could have made so many more memories, but i'm also grateful for the ones we did have. ----

“ You know things happen in a young mans life that make an impact on him for the duration. Now I can remember so many times needing someone when I thought there was no one & low & behold There you were. We've discussed everything I know it's may not be appropriate for this venue but you remember when I called u an old perv. We laughed & laughed so hard . remember the night 2 of your sons & 1 of your oldest grandson went & almost got shot all bc someone wanted to speak ill of your name we had your back like so many times you had ours . I am sorry I didn't come around more often I can't count the times if I needed you you were there no questions asked about why or what you were there for. Yes we had our disagreements we even came to blows a few times but still we had a mutual love & respect for each other . you believed in me when Lord knows I didn't believe in myself. I am so grateful I had the pleasure & privilege of having a wonderful person that no matter what where when why who or how you were always there to hold me up remember our conversation about darryls song have you forgotten I will not say anymore that's just for us. Thanks granny for all you taught me thanks for being the best you you could have ever been I am a better person bc of it . I love you very much & instead of morning your death I'd rather celebrate your life . granny you maybe gone from this cold world but you're far from over
