“ Nicholas, Although I never had the pleasure of meeting you I have had the opportunity of knowing your wife. She worked on the floor that I manage at Skyline Medical Center. She always spoke very highly of you and it was clear to all that she loved you with all her heart. Knowing that Amanda loved you with her entire being tells me that you were a special person. In mourning your passing we celebrate your life. You will be forever remembered by myself and our team.

“ Nick was the brother Dennis never had. He blessed all that encountered him with his laugh and smile. He believed in helping & shared what he had. To see him with Amanda was to see true love. They were a creation from God. There is some solace in the fact that they left this earth together. He was so excited for all her accomplishments and loved to do anything for her. Nick did a lot for many people- no book could ever record what he did. They were so accomplished for their young age- many elders had not achieved what they did and many never find the love they had. Heaven is blessed & God has a special plan for them, we will see them one day. It is odd to see the entries from people they never knew who were in the traffic that night, that prayed for them and the families, THEN took time to find the guestbook and sign it- that is truly a work of God. May memories replace the sorrow, but always think of those smiles-they could light the darkest sky.
