“ You’re still my everything and always will be. I love you so much and miss you so much already and it’s not even been 24hrs yet. I can’t imagine missing you more than I already do so I know it’s only just going to get worse (for me not you! because I’m selfish and miss your delightful company and will miss it for the rest of my life not being able to spend anymore time with you, but I know you’re just frolicking about with Cecile and Grandad having the best time so I’ll try to suck it up for the both of us (just me lolol). Love you ❤️
