“ Wanda was my grandma, she had been by my side since I was born and raised me along side my uncle chuck. She was an amazing, strong, and kind woman. She always smiled even when things got bad. She was always helping someone when they needed it. She was such a wonderful person. I'll miss her everyday and she'll always be in my heart and in my thoughts. She taught me to be the woman I am today. She got to at least meet all of my children like she always said she would. She was the best, always giving the kids chocolate every time she seen them, so you know they loved that. I'll miss her hugs, her playing catch up when I would visit her in Joelton, her cooking, her random phone calls just to chit chat. She was my best friend, my parent, my guide. Love you grandma
